About

I am a Full-Stack JavaScript/TypeScript Developer. I am also quite proficient in Graphic Design. As a developer I like to focus on the details and to have control and freedom in my tooling. I write efficient and DRY code and follow functional programming principles. As a designer I'm fascinated by creative design, particularly brand identities.

Strengths:

Reasonable Eloquence	Logical Thinking	Problem solving	Self-Motivation	Empathy	Teamwork	Curiosity

Experience

Freelance Developer & Designer Upwork May 2012 - Present <p>I have worked on and off as a freelancer since the summer of '12. I have taken up projects locally as well as on Upwork. As a designer I've taken on all areas of graphic design, with a special focus on logo and brand design. As a developer, I've done web sites and full-stack JavaScript applications. I am no longer as active as I was, but maintain a few long-term clients.</p>	Full-Stack Developer NestedLogics Dec 2017 - Jan 2018 Project Manager NestedLogics Feb 2018 - May 2018 <p>I was Initially hired to develop a full-stack web and desktop application. I got promoted to manage the project shortly after joining.</p>
Full-Stack Developer WiMetrix Feb 2021 - Present <p>I was hired as a Full-Stack React and Node developer. My work has primarily involved developing web, desktop, and mobile applications in React. I have also developed REST APIs. I have converted the codebase to typescript, added extensive testing, and developed custom schema based generation. Through my efforts, I have enhanced code quality and maximized code reuse.</p>	

Education

High School Diploma (HSSC) BISE, Attobabad 2012 Passed with honours. 1st Position in the Computer Science group.	Bachelors in Software Engineering UET, Taxila 2013 - 2017 With a major in Web Development.
